This matter is before the court on defendant's motion for
an order of further ophthalmic treatment. The court is informed
the government has no objection to the motion. Defendant has
previously been subjected to medical procedures and care for
cataracts while in custody awaiting trial. Defendant's
condition with respect to his eyesight is still problematic for
him. For good cause shown, the motion is ALLOWED. The court
DIRECTS U.S. Marshal Service to consult with the physicians at
the BUTNER Federal Correctional Institution who had previously
treated defendant to determine what additional treatment is
available and recommended in regard to defendant's condition,
and to report to the court as to what, if any, further treatment
or procedures are available to improve defendant's eyesight.
